Cars and real estate

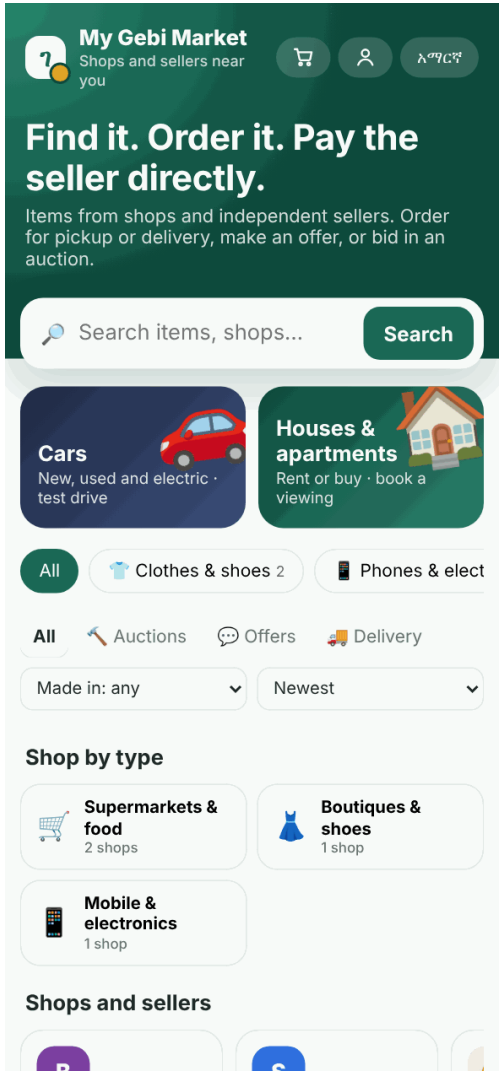

Real listings, real buyers, on My Gebi Market.

Listing a car

- Make, model, year, km, fuel (petrol, diesel, electric, hybrid), gearbox, body, plate code, duty, colour, exchange, bank loan.
- A **photo, make, model and year** are needed to show on the market.
- Buyers filter by all of it and send a **request to see / test drive**.

Listing a home or land

- Rent or sale, bedrooms, bathrooms, size, sub city, area, a landmark.
- Stand at the property and add its **GPS pin**.
- Tick parking, title deed (ካርታ), water, generator, negotiable. Buyers tap **Request a viewing**.

Fast: paste your Telegram post

- Paste the post you wrote for your channel: the form **fills itself** (make, model, year, km, price, rooms, size, area…).
- Phone numbers, @usernames and links in the post are left out: buyers reach you through My Gebi.

The price guide

- Every car and home gets a label: **good price**, **fair price**, **above market** or **unusually low**.
- You see the usual range while typing your price.
- "Unusually low" warns buyers to see it in person and check the libre / title deed first.

Buyers who come back

- Buyers save a search ("2 bedroom in CMC", "Toyota after 2012 under 3 million").
- New matches go to them on Telegram, at most every 15 minutes, never at night.
- Each car and home for sale shows a **loan estimate**.

What it costs
