My Gebi · ገቢ

Reports, expenses and profit

Income is not profit. My Gebi shows both.

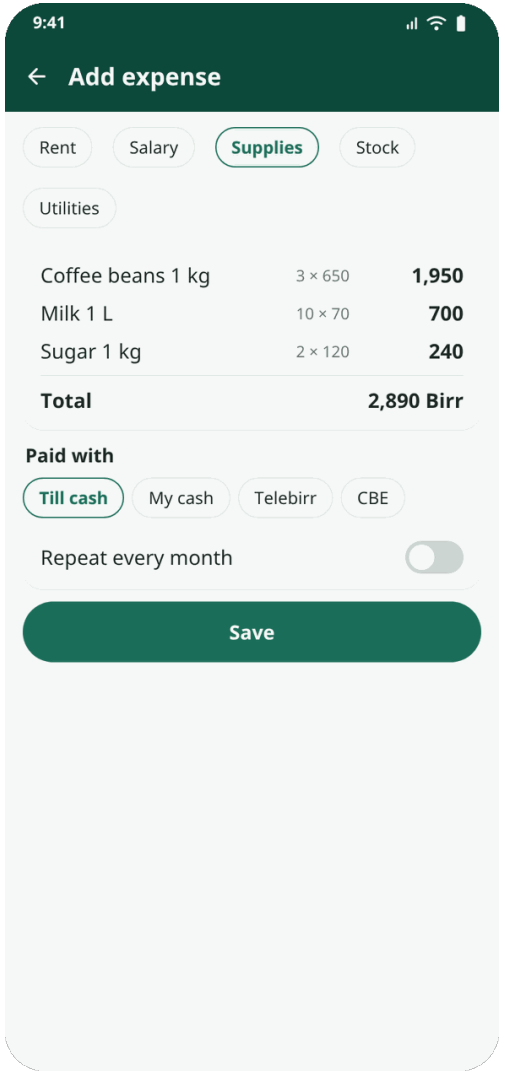

Reports

- More **Reports**. Tap a month or choose any period.
- Income, profit, each person's work, **best sellers**, **busy hours**.
- **PDF** or **Excel** to print or send to your accountant.

Expenses

- More **Expenses** **Add expense**: rent, salary, supplies, stock…
- Bought several things? Each item with how many and the price: the total adds itself.
- How it was paid: **till cash**, your cash, Telebirr, CBE. Till cash is taken off the cash expected at close.
- **Repeat every month** for rent and salaries.

How profit is counted

+	-
Income from sales	Expenses
ብድር paid back	Staff commission

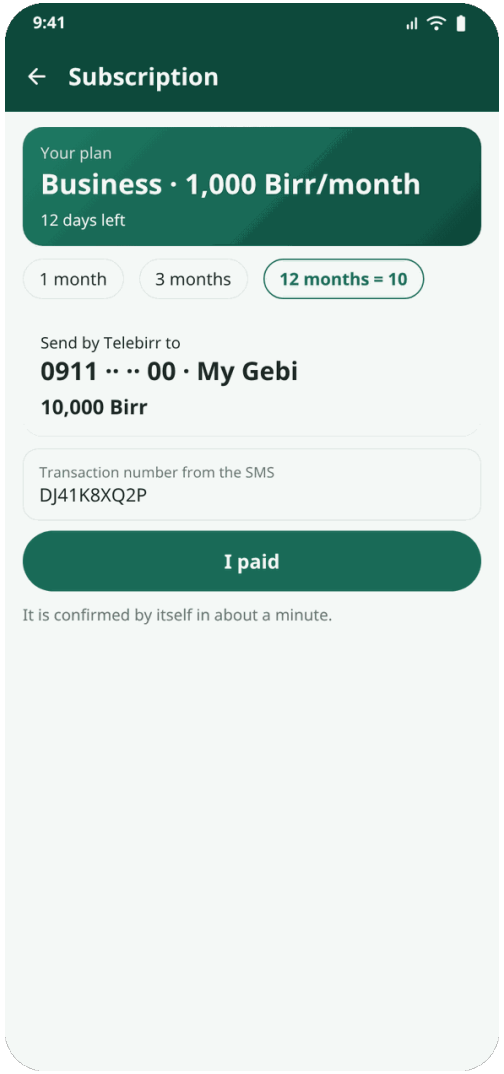

Example: In Meskerem, Almaz Café had 128,400 Birr income. Rent 25,000, salaries 36,000, coffee, milk and sugar 22,000, commission 4,200. Profit: 41,200 Birr. Shiro was the best seller at lunch; macchiato from 8 to 10 in the morning.

Read your reports like a pro

- **Busy hours:** put your best staff on the busiest hours.
- **Best sellers:** never let them run out; put them first on the menu.
- **Slow items:** change the price, the photo or drop them.
- **Each person's work:** praise the best; help the slowest.

Paying for My Gebi

- More **Subscription**: your plan and days left.
- Send the amount by **Telebirr to the number shown**, type the transaction number: confirmed in about a minute.
- **12 months for the price of 10.**
- If you don't pay, **sales keep working**; only the dashboard and reports pause.

Good habits

Add every expense the same day.

Close the day every evening: the cash matches the numbers.

Download the month's PDF on the 1st and keep it.
